I am a web developer/designer living in Los Angeles, California.

EXPERIENCE

DELOITTE DIGITAL 2012 - PRESENT SENIOR DEVELOPER

At Deloitte Digital I am tasked with building and engineering enterprise mobile and web applications for large-scale clients across a broad spectrum of financial sectors. My role changes from technical advisor to developer/programmer depending on the project. Some clients I have worked for include: Sony, VMWare, Commonwealth of Pennsylvania and T-Mobile.

AND COMPANY 2010 - 2012 SENIOR DEVELOPER

My role as Senior Developer at And Company was to build websites, games and applications while also overseeing all programming development. I managed a team of five designers and programmers in addition to completing my own production work. We implemented a modified version of my Model View Controller framework into all our Flash projects. Clients I worked for during my time there include: Warner Bros., Sony, HBO and Scion.

TUESDAY CREATIVE 2005 - 2010 SENIOR FLASH DEVELOPER

As Senior Flash Developer at Tuesday Creative I was responsible for all Flash, ActionScript and XML configuration work we did at the company. I managed teams ranging from 3 - 7 people on a project to project basis. I built a variety of websites, games and apps in the entertainment and corporate industries. Entertainment clients include: Disney, NBC Universal, 20th Century Fox; corporate clients include: SCI, Cisco Enterprises, Harris Interactive and DirecTV.
